## Some Initial Findings in the 3000+ Fauci Emails

3000+ pages of Fauci's emails have been released

They can be downloaded here as a PDF (~360 MB): [[link to www.documentcloud.org.\(secure\)](http://www.documentcloud.org.(secure))]

At first glance this release seems to be the result of the Judicial Watch FOIA fillings

A few interesting findings that have been dug up so far:

1. In late February 2020, Dr. Fauci received an email alerting him that COVID was released (not accidentally escaped) from a lab in China. Dr. Fauci forwarded the email to a person at NIH/NIAID and told them to "handle it"  
**[Page 522](#)**
2. In mid-March 2020, Dr. Fauci received an email titled "Coronavirus bioweapon production method", which supposedly included instructions of how COVID was created.  
**[Page 2286](#)**
3. In mid-April 2020, Dr. Fauci received an email from researcher Peter Daszak, tied to Wuhan lab, thanking Dr. Fauci for "publicly rejecting the lab leak theory".  
**[Page 1150](#)**

Peter Daszak is also known as Biden's "COVID cover-up chief".  
[\[link to peterdaszak.com.\(secure\)\]](http://link to peterdaszak.com.(secure))

4. Fauci had urgent, time sensitive discussions about gain-of function, he told colleagues that retail masks don't work due to the size of the virus, and, he ignored a scientist who told him that the CCP was lying about COVID.  
**[Page 3027](#)**
5. The Gates Foundation innovations were proposed to Dr. Fauci.  
**[Page 1383](#)**
6. Possible sequencing of COVID by India, acknowledged by Dr. Fauci.  
**[Page 3200](#)**
7. Mark Zuckerberg and Dr. Fauci exchanged emails, talking about the COVID jabs back in late-February 2020, prior to the March 2020 lockdowns. They were already working on trials at that time.

These emails were before Dr Fauci's February 29th 2020 interview with MSM,

saying that we do not need to worry about COVID yet.

He also called the risk of COVID 'minuscule' back in mid-February 2020. If he believed that to be the case, why discuss vaccines with Zuckerberg within a few weeks time?

**Page 243**

**8.** Fauci was informed (and replied to) an email about the possibility that COVID was engineered (i.e., lab origin), back on February 1st 2020.

**Pages 3187 ~ 3193**

**9.** In early-March 2020, someone emailed Fauci suggesting that the media ought not to be fear-monger, rather, give perspective (with comparisons to other illnesses and diseases).

**Page 37**

*The drip is turning into a flood...*

**Updates from the thread:**

**10.** Dr. Ezekiel Emanuel had access to President Trump, Later he was appointed to Biden's COVID Advisory Board.

**Page 23** [[link to www.godlikeproductions.com](http://www.godlikeproductions.com)]

**11.** "This is how the virus was created"

**Page 2286** [[link to www.godlikeproductions.com](http://www.godlikeproductions.com)]

**12.** The Rockefeller Foundation raises its evil head

**Page 1123** [[link to www.godlikeproductions.com](http://www.godlikeproductions.com)]

**13.** Fauci sends an email to the Washington Times with links to 3 scientific papers on the 'probable' origins of COVID. They all do not mention the Wuhan Lab at all.

**Page 1144** [[link to www.godlikeproductions.com](http://www.godlikeproductions.com)]

**14.** New rabbit hole: An Italian scientist writes about co-infections of COVID and TB, and also COVID and HIV

**Page 1227** [[link to www.godlikeproductions.com](http://www.godlikeproductions.com)]

**15.** From Jim Iversen - CEO/COO - Sen-Jam Pharmaceutical to Fauci from March 1st 2020 explaining that they have treatment that can reduce symptoms

Fauci fwds email to Cristina Cassetti, Ph.D., deputy director of NIAID' and tells her to "please handle"

as in make it go away?

**Page 111** [[link to www.godlikeproductions.com](http://www.godlikeproductions.com)]

**16.** Email from Dr Robert Jay Rowan offering a cheap solution to covid with osmosis, sent 2nd Feb 2020,

the same 'Please handle' response from Fauci

**Page 3112** [[link to www.godlikeproductions.com](http://www.godlikeproductions.com)]

**17.** From the NIH responding to an email on page 1320. The response is basically 'thanks for your submission but we will ignore it'. It was very curt and dismissive.

The latter email was from a doctor from an Israeli university saying they should consider using 3 anti-viral agents that are cheap and readily available. This was sent on Apr 8, 2020. One of those agents was chloroquine.

**Page 1319** [[link to www.godlikeproductions.com](http://www.godlikeproductions.com)]

**18.** Emails from early 2020 show awareness of potential for enhanced disease following COVID vaccination, as previously seen with SARS vaccine candidates.

**Pages 184, 18 & 19** [[link to www.godlikeproductions.com](http://www.godlikeproductions.com)]

In April 2020 there is a clip of a white house worker saying they have already been vaccinated on a "hot mic". Rogan even talked about the clip but didn't mention that.

That's what we have been thinking too.

Many people like to assume that all that's happening is calculated by the bad guys. But seeing the project looking glass video that was posted here, it seems like there are different factions.

There is a real Rue Morgue of evil people in these emails. On page 1117 is a completely redacted email from Adrian Hill.

[

The Irish scientist who helped develop the recently-approved Oxford/AstraZeneca vaccine stands to make millions of dollars from the vaccine's distribution, according to several media reports.

DUBLINER Adrian Hill and fellow Oxford Professor Sarah Gilbert, who led the research team that developed the new COVID-19 vaccine at Oxford, both stand to profit from their start-up Vaccitech, which helped to develop the experimental vaccine along with Oxford's Jenner Institute.

They stand to make millions from royalties and from "milestone payments" once the COVID-19 pandemic is at an end, according to the Wall Street Journal.

Both Oxford and AstraZeneca could stand to make hundreds of millions of dollars from the new vaccine if it is effective against the coronavirus, especially if the vaccine is required annually in a similar fashion to the flu vaccine, according to the Daily Mail.

The Rockefeller Foundation raises its evil head on page 1123.

They have regular access to Caleb McCarry at the White House, a staff member of the Foreign Relations Committee. The Foundation is worried about 'supply chain problems' and is willing to pay 10M USD to fix the logistical issues so the Foundation can make money off the COVID panic.

**Re: Some Initial Findings in the 3000+ Fauci Emails**

Hey, how about the fact that no one in congress has questioned either the legitimacy of this hoax pandemic or the deathvax. Get this through your head: Fauci is a front man. The entire government system and its masters and tentacles are the fucking problem. And i'll tell you why Fauci wasn't concerned at first about covid, because the shit is fake, it's the just the flu. He changed his tune when he got his marching orders to advance the psyop.

On page 1144 Fauci sends an email to the Washington Times with links to 3 scientific papers on the 'probable' origins of COVID. They all do not mention the Wuhan Lab at all.

This is interesting, and I hope all the truth spills into the open.

But it's fighting the last war. The current issue is what to do about shedding from those taking the currently available shots. What is being shed and how do we protect ourselves?

A year ago the pathogen of concern was Covid 19. Now it's this other new mysterious thing being shed (or things, maybe differing by which "vax" the shedder took.)

oh crap, I will be researching all day. But I am right now more concerned with pulmonary tuberculosis. TB has made a come back since 1985 thanks to AIDS patients. There's the TB/HIV connection. And remember northern Italy had a huge amount of intubated patients at the beginning of the pandemic that in hindsight may have been caused by TB infections. Yes, I am saying 'they' may have intentionally have infected COVID patients with TB to ensure the maximum DOOM to scare people.

[[link to www.mayoclinic.org \(secure\)](#)]

Tuberculosis (TB) is a potentially serious infectious disease that mainly affects the lungs. The bacteria that cause tuberculosis are spread from person to person through tiny droplets released into the air via coughs and sneezes.

Once rare in developed countries, tuberculosis infections began increasing in 1985, partly because of the emergence of HIV, the virus that causes AIDS. HIV weakens a person's immune system, so it can't fight the TB germs. In the United States, because of stronger control programs, tuberculosis began to decrease again in 1993. But it remains a concern.

---

And a side note: AIDS patients also revived Hansens Disease (Leprosy). I was very concerned about this at the time because the incubation period for leprosy can be as long as 20 years. I was afraid it would spread all that time before it was realized that it was happening. But that was about 35 years ago so we got lucky. [[link to www.who.int \(secure\)](#)]

The most common involved endocrine organ in TB is the adrenal gland. The endocrine system is fucked by these jabs.

Quoting: Anonymous Coward 35870766

oh crap, I will be researching all day. But I am right now more concerned with pulmonary tuberculosis. TB has made a come back since 1985 thanks to AIDS patients. There's the TB/HIV connection. And remember northern Italy had a huge amount of intubated patients at the beginning of the pandemic that in hindsight may have been caused by TB infections. **Yes, I am saying 'they' may have intentionally have infected COVID patients with TB to ensure the maximum DOOM to scare people.**

[[link to www.mayoclinic.org \(secure\)](#)]

Tuberculosis (TB) is a potentially serious infectious disease that mainly affects the lungs. The bacteria that cause tuberculosis are spread from person to person through tiny droplets released into the air via coughs and sneezes.

Once rare in developed countries, tuberculosis infections began increasing in 1985, partly because of the emergence of HIV, the virus that causes AIDS. HIV weakens a person's immune system, so it can't fight the TB germs. In the United States, because of stronger control programs, tuberculosis began to decrease again in 1993. But it remains a concern.

-----  
And a side note: AIDS patients also revived Hansen's Disease (Leprosy). I was very concerned about this at the time because the incubation period for leprosy can be as long as 20 years. I was afraid it would spread all that time before it was realized that it was happening. But that was about 35 years ago so we got lucky. [[link to www.who.int \(secure\)](#)]

On page 1319 there is an email from the NIH responding to an email on page 1320. The response is basically 'thanks for your submission but we will ignore it'. It was very curt and dismissive.

The latter email was from a doctor from an Israeli university saying they should consider using 3 anti-viral agents that are cheap and readily available. This was sent on Apr 8, 2020. **One of those agents was chloroquine.**

No! We do not need a war, especially with a nuclear power.

No SarsCoV2 virus has ever been isolated. China didn't release anything, they faked an outbreak and used that to round up and kill dissidents. If there were a virus, a killed or attenuated version of it would be in the "vaccines" but it's not. It's a spike protein and it's being used to kill people. Those vaccines aren't coming from China, they're coming from big pharma in Europe and the US.

China probably conspired with western globalists in the faking of this scamdemic.

In his poem Human Pride, Marx admits that his aim is not to improve the world, reform or revolutionize it, but simply to ruin it and enjoy it being ruined:

With disdain I will throw my gauntlet full in the face of the world,  
And see the collapse of this pygmy giant whose fall will not stifle my ardor.  
Then will I wander godlike and victorious through the ruins of the world  
And, giving my words an active force, I will feel equal to the Creator.

I completely agree with your analysis. The real danger is the VACCINE and that is why this farce plandemic was created - to get the VACCINES in people for the de-population agenda.

Red China was used by Globalists like Fauci, Bill Gates, Karl Schwab, etc. to create the setting for their Great Reset, the changing and take-over of the entire world. Event 201/Wuhan Military Games was the kick-off.

No one will discuss the GLOBALISTS role in this however, they will hyper-focus on the Red Chinese, who are used as tools repeatedly by the Globalists and their Corporate stooges.

A few interesting findings that have been dug up so far:

1. In late February 2020, Dr. Fauci received an email alerting him that COVID was released (not accidentally escaped) from a lab in China. Dr. Fauci forwarded the email to a person at NIH/NIAID and told them to "handle it"  
[Page 522](#)

2. In mid-March 2020, Dr. Fauci received an email titled "Coronavirus bioweapon production method", which supposedly included instructions of how COVID was created.  
[Page 2286](#)

3. In mid-April 2020, Dr. Fauci received an email from researcher Peter Daszak, tied to Wuhan lab, thanking Dr. Fauci for "publicly rejecting the lab leak theory".  
[Page 1150](#)

Peter Daszak is also known as Biden's "COVID cover-up chief".  
[\[link to peterdaszak.com \(secure\)\]](#)

4. Fauci had urgent, time sensitive discussions about gain-of function, he told

colleagues that retail masks don't work due to the size of the virus, and, he ignored a scientist who told him that the CCP was lying about COVID.

**Page 3027**

**5. The Gates Foundation innovations were proposed to Dr. Fauci.**

**Page 1383**

**6. Possible sequencing of COVID by India, acknowledged by Dr. Fauci.**

**Page 3200**

**7. Mark Zuckerberg and Dr. Fauci exchanged emails, talking about the COVID jabs back in late-February 2020, prior to the March 2020 lockdowns. They were already working on trials at that time.**

These emails were before Dr Fauci's February 29th 2020 interview with MSM, saying that we do not need to worry about COVID yet.

He also called the risk of COVID 'minuscule' back in mid-February 2020. If he believed that to be the case, why discuss vaccines with Zuckerberg within a few weeks time?

**Page 243**

**8. Fauci was informed (and replied to) an email about the possibility that COVID was engineered (i.e., lab origin), back on February 1st 2020.**

### Re: Some Initial Findings in the 3000+ Fauci Emails

One last post.

On page 1347 of the link in the original post we have a meeting being set up between Fauci, Birx, the Vice President, and a bunch of **DEMOCRAT senators**. No Republicans were invited. They were meeting by phone on April 16, 2020.

I can just hear Kamala, "Is COVID, you know, like AIDS and stuff?"

anyone here know about this?

On page 1227 an Italian scientist writes about co-infections of COVID and TB, and also COVID and HIV.

Earlier I found that a friend of Fauci is Eric Rubin, the world's leading expert in Tuberculosis.

and

Anyways, infecting people that have COVID with TB in Italy would explain the seriousness of the conditions during the early pandemic. That's a rabbit hole I may go down today.

A few interesting findings that have been dug up so far:

1. In late February 2020, Dr. Fauci received an email alerting him that COVID was released (not accidentally escaped) from a lab in China. Dr. Fauci forwarded the email to a person at NIH/NIAID and told them to "handle it"

**Page 522**

2. In mid-March 2020, Dr. Fauci received an email titled "Coronavirus bioweapon production method", which supposedly included instructions of how COVID was created.

**Page 2286**

3. In mid-April 2020, Dr. Fauci received an email from researcher Peter Daszak, tied to Wuhan lab, thanking Dr. Fauci for "publicly rejecting the lab leak theory".

**Page 1150**

Peter Daszak is also known as Biden's "COVID cover-up chief".

[[link to peterdaszak.com \(secure\)](#)]

4. Fauci had urgent, time sensitive discussions about gain-of function, he told colleagues that retail masks don't work due to the size of the virus, and, he ignored a scientist who told him that the CCP was lying about COVID.

**Page 3027**

**5. The Gates Foundation innovations were proposed to Dr. Fauci.**  
**Page 1383**

**6. Possible sequencing of COVID by India, acknowledged by Dr. Fauci.**  
**Page 3200**

**7. Mark Zuckerberg and Dr. Fauci exchanged emails, talking about the COVID jabs back in late-February 2020, prior to the March 2020 lockdowns. They were already working on trials at that time.**

These emails were before Dr Fauci's February 29th 2020 interview with MSM, saying that we do not need to worry about COVID yet.

He also called the risk of COVID 'minuscule' back in mid-February 2020. If he believed that to be the case, why discuss vaccines with Zuckerberg within a few weeks time?

Do you really think someone is goin down AND gonna be forced to pay back the billions lost OR bring back the millions of jobs lost OR pay back all those that lost their jobs...homes and most everything they owned? Will the families of those murdered by the plandemic OR the poisoned shots they're still dishin out be compensated or apologized to. Is that what's happenin in your thinkin. If all of this doesn't happen then YES it's a big nothin will happen.

Are you really not seein all the nothin happenin right in your face? All the political crooks and criminals from decades are still out and about livin it up on their billions

pilfered from hard workin Americans and more. All the crooked deals designed to make them richer while they pick n choose which of their shithead minions will be the flavor of the week goin down instead of the real criminals.

There is no monolithic "GLP" in the sense you mean. There are only individual forum participants with differing opinions. Some have maintained that Covid-19 is merely the flu and the so-called pandemic is one Big Lie. Others have maintained that Covid-19 is a biological warfare weapon unleashed on the world from within China by Progressives in the West colluding with Chinese Communists. Others maintained that Covid-19 is a bio-warfare agent militarily unleashed by the U.S. and Western allies inside China to target the CCP. Still others have gobbled up the MSM propaganda that the virus was a mutant strain from a bat in a Chinese street market.

**Re: Some Initial Findings in the 3000+ Fauci Emails**

I'll trust Fauci over a bunch of stupid chemtards and flat earthers any day of the week.

It's hilarious that anyone on this site acts as though they understand Covid better than Fauci.

I need help with this. Tuberculosis has appeared several times in my research this morning. I have not heard anything about TB and COVID before today. Does anyone here know about this?

On page 1227 an Italian scientist writes about co-infections of COVID and TB, and also COVID and HIV.

Earlier I found that a friend of Fauci is Eric Rubin, the world's leading expert in Tuberculosis.

Anyways, infecting people that have COVID with TB in Italy would explain the seriousness of the conditions during the early pandemic. That's a rabbit hole I may go down today.
